

# GIOVANNI COLITTI

## EDUCATION

2018

### National Taiwan University

M.S. in Agricultural Economics (4.0 GPA)

📍 Taipei, Taiwan

2016

### California State University, Channel Islands

B.A. in Economics (3.8 GPA)

📍 Camarillo, CA

## EXPERIENCE

2018

|  
Current

### Data Scientist

Grimmway Enterprises

📍 Bakersfield, CA

- Trained machine learning models in R that improved predictive accuracy over previous methods by 40-50%.
- Used linear/mixed integer programming to optimize business operations.
- Performed complex data cleaning and exploration on large datasets.
- Wrote statistical analysis reports to determine causal relationships.
- Developed custom functions in R for cross-validation of time-series data with irregular time slices.
- Created Shiny apps and dashboards to visualize projections, implement dynamic optimization problems, and generate automated reports.
- Managed database tables using R and SQL.
- Scraped open source weather data online and set up API connections.
- Created Grimmway R package used internally to facilitate common programming tasks.
- Used Docker/DockerHub and ShinyProxy to publish applications and reports online.
- Performed sample size calculations and provided spatial sampling recommendations.
- Communicated analytical methods and results to the entire executive team.

2015

|  
2016

### Data Analyst Intern

Small Business Development Center

📍 Camarillo, CA

- Analyzed small business metrics, such as revenue per employee, to predict which clients have the highest risk of bankruptcy.
- Used model predictions to efficiently allocate limited consulting resources to assist at-risk businesses.
- Trained executive team in statistical methods.

2014

### Research Assistant

California State University, Channel Islands

📍 Camarillo, CA

- Collected and cleaned data from various online sources using Stata programming.
- Created visualizations in Stata and wrote literature reviews of scientific articles related to Chinese & Indian stock, currency, and debt markets.

## SKILLS

**Analytical Methods:** regression, classification, feature engineering, linear programming and optimization methods, causal analysis, Bayesian and Monte Carlo methods

**Coding:** R (caret, brms, shiny, data.table, dplyr, ggplot, plotly, rmarkdown, lpSolve, purrr, rvest, http, xml2, devtools, rsample, recipes, shinydashboard, flexdashboard, dbplyr, DBI), Stata, SQL, Git, Docker

**Languages:** English, Chinese

## COURSEWORK

R Programming (I/II)

Ecological Data Analysis in R

Quantitative Business Science

Econometrics (I/II)

Financial Econometrics

Web Applications in R with Shiny

Quantitative Methods

Applied Microeconomics

Advanced Macroeconomics

## SELECTED RESEARCH

- 2018 ● **Do Concealed Firearms Decrease Crime? An Analysis Using Active Concealed Firearm License Data in the United States**  
Used a unique dataset on county-level concealed firearms permits and applied two-stage least squares estimation & poisson regression models to show that concealed firearms do not decrease crime.  
DOI: <http://dx.doi.org/10.6342/NTU201800993>
- 2018 ● **Do HEVs Cause More Cyclist & Pedestrian Injuries?**  
Used logit model & large UK accident-level dataset to show that quieter electric vehicles significantly increase pedestrian accidents net of other covariates including speed limit and urbanization. Also used Bayesian methods (MCMC) to estimate the posterior distribution and check for non-normality in estimates.
- **Effect of Hurricane Morakot on Agricultural Prices in Taiwan**  
Used a difference-in-differences (DiD) event study model and a large transaction-level dataset to quantify the causal effect of Hurricane Morakot on vegetable prices in Taiwan, adding weight to the literature that claims weather is oftentimes the most important driver of local agricultural prices.

## ACADEMIC HONORS AND AWARDS

- 2018 ● **Thesis Competition First Place Prize**  
Master's thesis presentation competition first place winner.
- 2016 ● **Taiwan Ministry of Education Scholarship**  
Merit scholarship for post-graduate studies in Taiwan.
- 2016 ● **Program Honors in Economics**  
Selected by CSUCI Economics Department faculty for outstanding achievement.
- 2014 ● **Wang Family Scholarship**  
Merit scholarship for international study in Taiwan & Mainland China.
- 2012 ● **President's Scholarship**  
Highest scholastic achievement award in CSU system; only handful awarded annually.
